2) Seen. The disturbances in the city have no doubt engaged his attention. Sec may telephone to the P.A to the D.C to get him to do the needful.

[illegible]

1 8 29

Letter No. C5-362/29-30 dt 1.8.1929 from the Dy Comr. Bangalore, forwarding Preliminary Notifications & declaration sheets for the acquisition of the lands required for the Science Institute & requesting that the total estimated cost of acquisition (including Crop compensation) of Rs 11,336 may be made available etc.

1) The D.C. has sent two sets of notifications

Note—Contn. Sheet

WD 01684—GPB—30,000—20-4-29

Serial No.

for publication, one complying with the formalities required under S.5(A) of the L.A.R. & the other dispensing with them. As the land is required urgently the latter (flagged A) may be sent for publication & if necessary, the L.R. may be consulted as regards the correctness of the formats.

Before publication, however, it is necessary that the amount of compensation, estimated at Rs 11,336 should be provided.

The Dir. of Agr. estimates the cost of the buildings to be erected at about Rs 79,000. He has been asked D.O. today what his minimum requirements for this year would be & whether he could find any of the amount by re-appn. of sanctd. grants. On receipt of his reply the total amount required this year will have to be provided by an addl. grant. A G.O. will then be put up.

Meanwhile, if approved, the declaration at (A) may be sent for publication to same time. The lands can be taken possession of a fortnight later under S.17 L.A.R. A draft G.O. sanctg. this acqn. is put up for approval.

As regards the other points alluded to by the Sec. viz. Crop compensation, land compensation in lieu of money compensation etc, these are matters for the L.A. officer to decide & no definite orders can be given now. General instructions may, however, be given that land compensation may be recommended wherever possible. This has been included in the draft for approval.

Secy.

28) Dr Coleman discussed the
new building.

29) It is impossible for him to find
any portion the funds required by
reappropriation from the 5th grants
of his Dept. It is necessary therefore
to ask for an addl grant.

25 Dr Coleman thinks that the
absolute minimum required will
be Rs 70 000, including cost of acquisition
and has promised to go over the details
again, and write to me tomorrow.

26) So far as he is concerned, it
will not be necessary to shift the
Institute once again from the
site now proposed, unless at some
future time Govt wish to make
it portion a combined Health
Institute; but even then, the building
& the portion now would be useful
for an Agric College if one is
to be developed out of the present
School.

Serial No. 6

From The Dir. of Agri.
No Nil dt 3/8/29
states that all the buildings in with the exception of the Experimental Shed are necessary & that the total cost will be Rs 8,0000/-

29 Secy's orders on the letter:-
"Please put up with file immediately" Initld N. R. 5-8-29.

30 Submitted with the file.
5/8/29

31 For reasons already noted and explained in the Dir's letter dated 29-4-29 it is urgently necessary to shift the Serum Institute. The Director has also minuted (on the Dir's letter) that this removal is necessary.

32 The details of the site selected by the Dir are given in the Declaration statement. The cost of acquisition is estimated at Rs 11336 (inclusive of the statutory allce) and the cost of the entire Institute shifting will be Rs 80000. No reduction in these items possible.

33 The land has to be taken possession of at once. It is therefore necessary to provide funds for the scheme by an addl grant. The necessity is so obvious, and the bearing of the scheme on public welfare so direct

Note—Contn. Sheet

WD 01684—GPB—30,000—20-4-29

for His Highness' gracious approval.

Mirza M. Ismail

Dewan.

23-9-29

Final Note by the Second Member of Council.

18

Subject:— Construction of new buildings for the Serum Institute in Bangalore.

80 The Director of Agriculture reports that owing to the prevailing congested conditions in the Serum Institute, there was infection among some of the virus producing animals with pleuro pneumonia resulting in the stoppage of virus production for some time and that the danger of the recurrence of this sort of thing would be serious. In order to find a way out of this difficulty, he has submitted a scheme for the shifting of the Institute to another suitable place. He suggests the acquisition of certain properties in the Hebbal Village at a cost of Rs.11,336 and the shifting of the Institute thereafter constructing the necessary buildings for the working of the Institute and quarters for the staff at a total cost of Rs.80,000.

81 The Financial Secretary is of opinion that the scheme may be deferred, as, owing to the present state of finances and the unfavourable seasonal conditions, it is not possible to find money for it.

82 Preventive inoculation for rinderpest is one of the most important and useful activities of the Veterinary Department and we cannot afford to stop the work or afford to take risks of infection in carrying it on.

83 The acquisition of the site and the construction of the requisite buildings for the laboratory etc. for the production of Serum and virus is very urgent and this scheme has therefore somehow to be pushed through as it is unavoidable.

84 For these reasons, it is proposed to sanction the scheme in question at an aggregate cost not exceeding Rs.80,000 and to place a demand for this amount before the Legislative Council.

85 These proposals have received the approval of the Dewan and the other Members of Council and may graciously be sanctioned.

C S Balasundaram

MEMBER OF COUNCIL.

OFFICE OF THE DIRECTOR.

DR. LESLIE C. COLEMAN, M.A., PH.D.,
Director.

Bangalore, April 29, 1929

Dear Mr. Rama Rao,

Your D.O. letter No.D.10100/C.V.142-28-3 of the 1st instant.

I regret the delay in looking into this matter which has been due to pressure of work. I have gone over the ground with Dr. Partha-sarathy and have come to the following conclusions.

1. The site next to the Palace Orchard on the Bellary Road would be an excellent one. There is however some slight fear that an institution of this kind requiring as it does the keeping of a large number of sick animals in a comparatively small space might be looked upon as undesirable. There is, moreover, here no chance for grazing nearby, a feature which I consider of much importance in connection with an institution such as this.

2. The site beyond the Kaiser-i-Hind Mills on the Bellary Road is I consider not suitable. The land is low lying and I understand that the effluent from the mills which passes in close proximity is decidedly offensive. This piece of land is moreover likely to be decidedly expensive as some of it has already been devoted to horticulture and market gardening.

3. There is a 3rd site lying along the same road on the West side between the Forest Plantation and the boundary of the Hebbal Farm. As the accompanying sketch map shows, there are 26 acres 23 guntas of land here forming a strip along the road which is outside the danger zone. To the south of it lies the Forest Plantation and to the west of it a large area of land in the danger zone.

This site lies high up and has a few rocky out-crops. Drainage could therefore be easily provided and this could be led to the west -- through the danger zone area. While the construction of buildings and the work of the Institute itself would have to be confined to the a:

out

outside the danger zone I can see no reason why the Forest Plantation and the danger zone to the west could not be utilized for grazing purposes. In fact this is at present being done as far as the danger zone area outside the plantation is concerned.

This latter area is in the possession of the Imperial Institute of Animal Husbandry and Dairying who have been allowing us to use it free of charge. Recently however the Imperial Dairy Expert suggested the ---- advisability of regularising matters by our agreeing to pay a small rental for the area.

The only drawback to this site is its distance from the City water supply. It is I believe about a mile and a half from the Rifle Range corner where is to be found the nearest supply of filtered water. The Kaiser-i-Hind Mills have an unfiltered supply but are, I understand, -- unwilling to allow a connection with their supply. In any case an unfiltered supply might not be satisfactory. We can, I think, obtain an adequate supply by sinking a well or wells close to the tank and pumping up from there, a distance of about one half mile. The estimated requirements per day is about 5000 gallons which I believe could be readily met. It might be necessary to put in a small filtration plant costing about Rs 3000

The land should cost not more than Rs.5000/- as some of it is uncultivable. The buildings including the necessary quarters for staff some of whom would have to live on the spot would be about Rs.70,000/-. The cost of these would be the same whatever site were chosen.

The acquisition of this land together with the later acquisition of the rifle ranges and the danger zone area would give Government possession of all the land lying between the Rifle Range corner and the Hebbal Tank. Thus, later on, it would be possible in this area to put up buildings for an Agricultural College as well as for the proposed Health Institute. There would, at the same time, be available a considerable area of land which could be used partly for grazing for animals used in the preparation of sera and vaccines and partly as an area for cultivation by students of the Agricultural College.

The situation at the present Serum Institute is becoming - - - progressively more difficult. Dr. Parthasarathi now reports the infection of some of his virus producing animals with what [illegible]

pneumonia. This infection has undoubtedly been due to the congested conditions in the Institute and has led to stoppage of virus production till a thorough disinfection can take place. The danger of a recurrance of this sort of thing is serious and we must move as soon as possible. I would therefore request you to get very early approval to my proceeding with a scheme for shifting the Institute to the new site I have mentioned.

Yours sincerely,

Le Chatterjee

23rd July | C 9

Immediate.

Dear Mr. Haj Peerun,

Please refer to my official letter No. D.667 C.V.165-28-4 dated the 19th instant requesting you to furnish a preliminary notification for the acquisition of certain lands required for the Serum Institute. These lands lie to the west of the Bangalore-Bellary road, between the Forest Plantation and the Hebbal Agricultural Farm.

It has become a matter of immediate necessity to shift the Serum Institute to the new site. I am to request you to submit the ~~required~~ reqd in the letter referred to information to Government before tomorrow evening. It would perhaps be convenient if you could kindly come to the Public Offices with the necessary information, as there are certain points to be discussed. If for any reason, it is not possible to take possession of the entire block of land required immediately, arrangements may at least be made to give possession of the extent necessary for putting

up the structures immediately required.

Yours sincerely,

A.M. Syed Taj Peeran, Esq.,B.A.,
Deputy Commissioner,
Bangalore District.

25th July 25/7/29

Dear Mr. Taj Peeran,

I am to invite your kind attention to my D.O.No.03 dated 23rd July 1929 requesting you to furnish immediately the information necessary for notifying the acquisition of the land required for Serum Institute - and taking possession of it forthwith for shifting the Institute to the site. I had - been desired to indicate in that letter that the matter was one of extreme urgency, and to request you to bring the information if possible.

I am to request you again to furnish the information at once- as the operations of the Serum Institute have been seriously

P.T.O.

seriously hampered, by infection of the present site, and it is quite essential that the land proposed to be acquired should be made available without any avoidable delay.

Yours sincerely,

Dated, Bangalore, the 1st August 1929

C.O. 165-28-6

GEN. & REV. SECRETARIAT 1051 1929 DEVELOPMENT BRANCH

FROM

A. K. SYED TAJ PEERAN, ESQ., B.A.,
Deputy Commissioner,
Bangalore District.

To

N. Rama Rao, Esq., B.A., B.L.,
Secretary to the Government of Mysore,
Development Departments.

SIR,

Subject :— Acquisition of lands required for Serum Institute.

With reference to your letter No.D.667/C.O.165-28-6 dated the 19th July 1929 on the above subject, I have the honour to forward herewith the records in original received from the Amildar, Bangalore City, with his detailed report No.H.O.50/29-30 dated 26th July 1929 and to request the favour of your getting the enclosed declaration statements publishe in the Gazette. The Compiler, Mysore Gazette may be requested to send 30 spare copies of the same to this office for wide publication.

2. The Amildar reports that the ryots have already tilled the land ar manured them and estimates the cost of these operations at Rs.35/- per acre in round figures and states that it is fair that they should be given the expenses incurred by them in this behalf. The cost under this head is Rs.927/-, as mentioned by the Amildar in the Notification and I request you to kindly obtain the sanction of Government to make this sum available for payment. The sum of Rs.336 noted in the statement as extra compensation may be merged in the 15% statuatory allowance on the compensation amount to be awarded by the Land acquisitio Officer. The total cost of acquisition including Rs.927/- mentioned above is about Rs.11336/- which may kindly be made available.

3. It is seen from the report of the Amildar that a portion of Survey No.25 had been acquired for Hebbal experimental farm and that the remaining portion adjoins the lands now under acquisition. He is of opinion that keeping this portion as a Hiduvali land may mean complications in course of time and having considered that the omission of the Survey No. in the statement sent by you was by oversight, he has included the same in the preliminary Notification sent herewith. If the

acquisition of this area is approved, it may also be published along with other lands.

4. As regards the question of compensation, most of the lands of Hebbal village have already been acquired for - Hebbal Experimental Farm and few remain for the villagers. The owners say that they may be given lands in exchange or compensation at the rate of Rs 500/- per acre if the former is not possible. The Amildar states that the land can be - estimated at Rs 325/- per acre at the lowest and recommends that the owners may be given lands in lieu of compensation in cash. For this there are no lands in the neighbourhood of Hebbal and the Amildar states that gomal lands to the ext of 51-36 in Kodigehalli, Yelahanka hobli may be alienated and given to the land-owners, and that some lands of Dasarahalli village may also be made available for this purpose. If approved, I shall make a separate reference for alienation of these lands. I therefore request you to be so good as to kindly obtain suitable orders of Government on the - question of payment of compensation or grant of lands in - exchange.

5. As the matter is of an urgent nature and it may be necessary to take possession of the lands immediately, I am - sending herewith declaration statements in duplicate in English and Kannada under Sections 4, 6, 7 and 17(1) of the Land Acquisition Regulation as also similar declaration statement under Section 4 clauses (1) and (2), Section 17 (4) for such action as the Government may deem fit; if action under these sections is deemed necessary the Sub Division Officer, Bangalore Sub Division may be appointed to take order for the - acquisition.

I have the honour to be,
Sir,
Your most obedient servant,

Deputy Commissioner,
Bangalore District.

JSM/-

D 1196
C.V.

23

2nd August 1929.

Dear Dr Coleman,

I have just received from the Deputy Commissior the declaration statement of the lands required for the Serum Institute. The cost of acquisition (all told) is estimated at Rs. 11,336, including the portion of Survey No.25 which has not already been taken up for the Hebbal Farm. This was not in the list sen up by you- but may I think be included to avoid the inconvenience of an unacquired holding in the midst o a block which belongs to the Department.

You may take it that there will be no unavoidabl delay in acquiring the land- but the formalities pres cribed by law take some time; and if your need is ver urgent, you could save a couple of weeks' delay by getting possession of the minimum extent immediately required for structures etc., by private negotiation. If necessary proposals may be sent for the orders of Govt.

In the rough estimate received with your D.O.No.

RoC.1232-3 dated 29th April 1929 you put the co... of buildings at Rs. 72,050. This- with the cost of acquisition- makes the total requirements for - shifting the Serum Institute to Rs. 83,396 or say Rs.83,500. Has the whole of this sum to be got by an additional grant, or can any part of it be found by reappropriation from sanctioned grants? Are all the buildings included in the estimate of Rs.72,050 necessary this year? Could not the expenditure on quarters. Corly lines question be held over, and would it not be possible to make shift for the present with temporary structures? in place of some of the other buildings also?

I would be obliged if you would kindly go over the list and suggest what items could be postponed for next year, or the year after next.

Yours sincerely,

FAIR DRAFT.

W. 2/8

Director of Agriculture in Mysore,
Bangalore.

MR. N. RAMA RAO, B.A., B.L.,
Secretary to Government,
Development Departments.

GOVERNMENT OF MYSORE

D. O. No.

General and Revenue Secretariat,

Bangalore, 2 Aug 1929.

Dear Dr Coleman,

I have just received the declaration (from the Dy Comr) stating the lands acquired for the Sericulture Institute. The cost of acquisition (all told) is estimated at Rs 11336, including the portion of Survey No 25 which has not already been taken up for the Hebbal Farm. This was not in the list sent up by you. Such may & which be included to avoid the inconvenience of an unacquired holding in the middle of a block which belongs to the Dept.

You may take it that there will be no unavoidable delay in acquiring the land. But the formalities prescribed by law take some time; and

If your need is very urgent, you could
a complete
have a few weeks' delay by getting some
of the minimum extent immediately
required for structures etc by provisional
registration.

In the ~~statement~~ rough estimate
sent with yr DO no ROC 1232-S
dated 29 4 29 you put the cost of building
at Rs 72050. This - with the cost of
acquisition - makes the total requirement
for ~~starting the~~ shifting the Servants' hostel
to Rs 83396 or say Rs 83500. Am I
~~right in thinking that~~ the whole of this
sum ~~is~~ to be got by an addl grant, or
can any part of it be found by reappropn
from ~~sanctioned~~ grants? Are all the bldgs in-
cluded in the estimate of Rs 72050
necessary this year? Could the
expenditure be held over, and
~~is~~ it not be possible to make shift for
the present with temporary structures?
I would be obliged if you would kindly
forward the list and suggest what

items of the buildings to be constructed next year.
in the year after next.

REV. SECTION 1162 5 8 28

DEVELOPMENT FINANCE

OFFICE OF THE DIRECTOR,
Bangalore, August 3, 1929

Dear Mr. Rama Rao,

Your D.O. letter No.D.1195/C.V. of the 2nd instant. I have gone over the question of buildings for the Serum Institute very thoroughly with Dr. Parthasarathy this morning and find that all t buildings with the exception of the Experimental Shed (item 13 on the list sent with my letter of the 29th April) are quite necessary. I have pointed o to you in personal conversation the reasons why these buildings ar required. In the case of all quarters (items 2, 6 and 13) these a absolutely necessary on account of the distance from Bangalore whi will demand the presence of most of the menial staff and a small number of the superior staff on the spot. The other buildings wil give much the same accommodation as that now provided at the Serum Institute with a certain amount of relief for the excessive congestion that exists there.

The layout of the buildings and their construction will be planned with a view to their permanent use either for the Serum Institute or, if that is later combined with a Central Health -- Institute, for the rapidly expanding needs of our Agricultural Scho

With the omission I have suggested, the total cost for land and buildings will be almost exactly Rs.80,000/- which is, I feel certain, the minimum required for the carrying out of this important work.

Yours sincerely,

N. Rama Rao, Esq., B.A.,B.L.,
Secretary to the Government of Mysore,
Development Departments, Bangalore.

To

N. Rama Rao, Esq., B.A.,B.L.,

Secretary to the Government of Mysore,

Development Departments, Bangalore.

SIR,

With reference to your letter No. 13811/C.V.165-28-2, of the 1st June, I have the honour to state that I am taking action on the points mentioned in your letter. In the meantime, I enclose herewith particulars of the lands it is proposed to acquire as far as my staff have been able to obtain them. I would request you to obtain orders leading to early action in the acquisition of the land.

I have the honour to be,
Sir,

DEVELOPMENT BRANCH.

OFFICE OF THE DIRECTOR,
Bangalore, 17th August 1929.

Dear Mr. Rama Rao,

Your D.O.Letter No.D.1657 of the 12th. instan

As I indicated to you in personal conversation, it will be quite impossible for us to meet any part of the sum required for the Serum Institute by re-appropri ation. As it is I am having great difficulty in -- finding funds to finance our existing commitments and I simply can't find funds for fresh expenditure.

Yours sincerely,

L. C. Coleman

N. Rama Rao, Esq., B.A., B.L.,
Secretary to the Government of Mysore,
Development Departments, Bangalore.

Ref. 87-17-8 I suppose Mr. C. told you in personal conversation that since the shifting was very urgently necessary, he ought to

(for acquisition & buildings
whether money could not be found immediately
(by temporary reappropriation) from the
Grant for 1.80 tablets for the Serum Institute, as all the expenses on purchase of animals, feed, etc would be incurred just now. He said he would go & see Dr Martin in consultation with Dr Panthaki, & write to me.

OFFICE OF THE DIRECTOR,

Bangalore, August 26, 1929.

C.V. 165-28-8

Dear Mr. Rama Rao,

Please refer to my D.O.Letter No.Roc.1232 of the 17th instant.

As I have already pointed out to you, it is very essential that we relieve the congestion in the Serum Institute at a very early date. There have been no less than three stoppages during the past year owing to secondary infection with another disease among the virus producers.

You suggested to me the possibility of temporary re-appropriation to enable a beginning to be made towards the transfer. I have discussed the whole matter with Dr. Parthasarathy this morning and we have come to the conclusion that a sum of Rs.48,750/- for buildings and acquisition of land is required for the transfer of virus production.

On the understanding that money will be made available by a ~~separate~~ special grant in, say, January, it will be possible to find this money by reappropriation, and I forward a reappropriation statement for the amount accordingly.

It will be noted that I have allowed a sum of Rs.10,000/- for water connections. I do so because recent drilling in a well on the Hebbal Farm seems to make it doubtful if we can meet the needs of the institute for water from this source as I had expected. It will therefore be necessary to tap the main from Hesarghatta which will mean an additional allotment for this purpose.

As you will see, re-appropriation is proposed entirely from Feed and Experimental Animals. That means that if the allotments are not restored after 5 or 6 months by a supplementary grant, Serum and Virus production will automatically cease.

I would ask you to treat this matter as very urgent.

Yours sincerely,

Leslie C. Coleman

Rama Rao, Esq., B.A., B.L.,
Secretary to the Government of Mysore,

Read -

Letter No.Roc.1232-S dated 29th April 1929 from the Director of Agriculture in Mysore explaining the necessity for shifting the Serum Institute from its present premises, and proposing that it should be located ~~to~~ on a site selected by him, to the west of the Bangalore-Bellary Road, between the Forest Plantation and the Hebbal Farm.

2. Letter No.C.5-362/29-30 dated 1st August 1929 from the Deputy Commissioner, Bangalore District, furnishing the survey numbers, extent, and other particulars of the land proposed to be taken up for the Serum Institute.

3. Correspondence ending with Letter No.Roc.1282 dated 28th August 1929 from the Director of Agriculture, furnishing details of the estimated cost of shifting the Serum Institute to the proposed site.

Order No D. 3919-22 C1165-28-9.

Dated, Bangalore, 14-10-29 1929.

Camp Mysore

The Serum Institute which was started in 1927-28 is at present situated within the premises of the old Chief Commandant's Office (Race View) in insufficient buildings which were adapted for the purpose as a temporary expedient. The work of the Institute has developed so considerably

since then that the accommodation has proved extremely inadequate and it is reported that as a result of the congested conditions which prevail, a certain amount of infection in the manufacture of virus was detected, necessitating the stoppage of virus production for sometime. Preventive inoculation of rinderpest is an essential activity of the Veterinary Department and it is undesirable to subject the manufacture of serum and virus to the risks either ~~of~~ of occasional interruption or of exposure to infection. The Director of Agriculture has urged the necessity for immediately shifting the Serum Institute from its present location to a site selected by him which is situated to the west of the Bangalore-Bellary Road and adjoins the Hebbal Farm. The total cost of the transfer of the Serum Institute to the new site is estimated at Rs.80,000 of which a sum of Rs.11,336 is for the acquisition of the site and the balance for the construction of the buildings immediately necessary. The survey numbers comprised in the site are given @ in the margin.

@ Survey Nos. 20/1, 20/2, 21/1, 21/2, 22/1, 22/2, 22/3, 22/4, 23, 26, 27, 25/2, 25/3, 25/4 of Hebbal village, Bangalore Taluk

Govt. agree with the Director that it is urgently necessary to shift the Serum Institute from its present site to the one proposed by him, and are pleased to sanction his proposals, at an expenditure of Rs.80,000.

The Director of Agriculture is requested to have detailed estimates prepared for the several buildings required

within the sanctionted grant.

Proceedings for the acquisition of the site may be taken immediately.

A demand for a sum of Rs.80,000 being the cost of the proposal will be placed before the next meeting of the Legislative Council.

THE MYSORE LEGISLATIVE COUNCIL.

December Session-1929.

(NOTES ON CUT MOTIONS.)

...

9. 14- Serum Institute.

The place where the Institute is now located (Race View) is very congested and the animals in the Institute are liable to suffer from infection and other diseases. The activities of the Institute have been greatly expanded and much money is saved by the manufacture of the serum and virus at home. The loss of cattle to the ryots from rinderpest is also minimised by the prophylactic remedies being easily available. The construction of building on up to date lines for the Institute had therefore become absolutely necessary and the grant applied for is just - enough to meet bare requirements.

THE MYSORE LEGISLATIVE COUNCIL.

December Session-1929.

(NOTES ON CUT MOTIONS.)

27. 4. Veterinary charges (ii) C.V.Hospitals and Dispensaries- Hospital necessaries.

Messrs John Bell and Croydon's Bills

Veterinary appliances were supplied by the Fir in 1927 to Veterinary Hospitals. It was not possible to meet the cost of the same out of the sanctioned grants by reappropriation. Payment was held over for next year and as re-appropriation was not possible an additional grant was asked for. It was sanctioned in G.O.No.D.12165-67/C.V.127-28-2 dated 23rd May 1929. The Director was not able to utilis this grant as it was sanctioned late in the year and the " original " Bill of the Firm was mislaid. A search therefor, consequent correspondence to assure that the bill has not been audited and paid previously etc., caused further delay. It was, however, ascertained that payment had not been made so far and as the Firm has been put to much trouble and inconvenience, the additional grant is asked for.

THE MYSORE LEGISLATIVE COUNCIL.

December Session-1929.

(NOTES ON CUT MOTIONS.)

9.17. Miscellaneous.- Writing off the loan due from Mr. M.N.Subbiah, of late Agricultural Bank Sakalespur.

A loan of Rs. 60,000 was sanctioned to the late Mr.M.N.Subbiah, a member of the late Agricultural Bank Saklespur for the improvement of his coffee estate. He was unable to pay up his dues consequent on the deterioration of coffee lands and their poor yield. Government granted various concessions (Vide para 2 of G.O.No.6600-63 dated 25th April 1924) to him as to other similar debtors, in the shape of remission of interest and extending the period of re-payment in view of the fact that the deterioration was due to no fault of theirs. The final liabilities was thus fixed at Rs. 39,889-7-11 in 1924. Since ther the sale of hypothecated properties, except those allowed to the family for maintenance reduced the debt to Rs. 33,215-15-11. Even the little property left for the family is reported to be alienated and there is no means to recover the balance due- Before recommending the write off all possible means of recovery were explored. The loan has therefore to be written off.

B.V. 165-28-16

Proceedings of the Govt. of H. H.
the Maharaja of Mysore.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Read:--

Government Order No.P.3919-22/[redacted]28-9 dated 14th October 1929 sanctioning the transfer of the Serum Institute to a site situated to the West of the Bangalore Bellary Road near the Hebbal Farm at a total cost of Rs.80,000 of which a sum of Rs.11,336 was for the acquisition of the site and the balance for the construction of buildings immediately necessary.

2. Correspondence ending with letter No.9697 dated 8th February 1930 from the Chief Engineer of Mysore requesting sanction for the plans and estimates for the construction of the Serum Institute Buildings referred to in the Government Order read above at a cost of Rs.77,900 and for starting the work after calling for quotations instead of tenders.

ORDER NO.D. 9498-500 .../28-8-M

Dated Bangalore 26th February 1930.

The plans and estimates forwarded by the Chief Engineer are sanctioned.

2. The action of the Chief Engineer in calling for quotations instead of tenders is approved in view of the urgency of the work.

3. A sum of Rs.9,336 will be provided in the next year's Budget to meet the additional cost involved.

Subject:- Construction of a building for the Serum Institute at Hebbal, Bangalore.

Sir,

Adverting to para 2 of G.O.No.D.9498-500/C.V.165-28-16 dated the 20th February 1930, I have the honour to forward herewith a copy of letter No.10217 dated the 7th March 1930 from the Superintending Engineer, Mysore Circle submitting the six quotations received for the work (together with its enclosures in - - original) and to state that, under the circumstances explained, the quotations of Mr.Kempiah and Mr.Rangadasappa who have agreed to execute the work at the lowest tender rates of Mr.Nagappa may be accepted and the work distributed between the two contractors with a view to finish the whole work within the next few months.

The favour of an immediately reply is requested.

I have the honour to be,
Sir,
Your most obedient servant,

J. Bhore
15-3-30
CHIEF ENGINEER OF MYSORE.

T.R.S.

62

Letter No.10217 dated the 7th March 1930, from the Superintending Engineer, Mysore Circle, to the Chief Engineer of Mysore.

With reference to your Memo No.10525 dated the 27th February 1930, conveying the sanction of Government to the estimate amounting to Rs.77,900/- for the construction of the Serum Institute at - - - Bangalore, I have the honour to submit herewith for orders, the six quotations received from the Executive Engineer, Bangalore Division for the work.

2. Deducting lumpsum provisions made towards compensation for lands, temporary establishment, electric installation, water connections, contingencies, etc., the work portion of the sanctioned ---- estimate will be Rs.56,238/-. As against this the several corresponding quotations received are:-

(1)	Mr.C.Nagappa.	Rs.53,328
(2)	Mr.M.Kempiah.	Rs.55,296
(3)	Mr.Rangadasappa.	Rs.56,238
(4)	Mr.B.H.Sanjeevappa.	Rs.60,731
(5)	Messrs.B.G.Pattiyanna and Brothers.	Rs.68,573
& (6)	Messrs.M.Muni-venkattappa and B.R.Aiya.	Rs.70,326

3. As it would not be possible for one contractor to complete all the buildings before June 1930, the Executive Engineer - - - - recommended in his letter No.C.85 dated the 15th February 1930 that the works be distributed among the three lowest tenderers in view of the urgency. As, however, the rates quoted by the three lowest offers were different from each other and as it was undesirable to pass for the same class of work such different rates the quotations were returned to the Executive Engineer for report if the three --- contractors would agree to the distribution proposed by him at the lowest rates quoted by Mr.Nagappa.

Mr.C.Nagappa, the lowest tenderer, in his application to the Executive Engineer, herewith enclosed, has stated that he is not -- willing to take up part of the work as proposed by the Executive -- Engineer, but that he would be willing to complete it in time if -- the whole work be given to him provided also the final acceptance - of his bid is intimated to him by the 10th March 1930.

Messrs.Kempiah and Rangadasappa on the other hand are agreeable to undertake part of the work at the rates quoted by Mr. C. Nagappa. Their applications to this effect are herewith submitted for perusal. The Executive Engineer now recommends that items 1,5,7,9,10,11,12 & 13 aggregating Rs.26,660/- at the rates quoted - by Mr.C.Nagappa may be given to Mr.M.Kempiah and the remaining items No.3,4,6 and 8 aggregating Rs.26,668/- at the rates of Mr.C Nagappa may be entrusted to Mr.Rangadasappa.

As the whole work will have to be completed before the 30th June 1930, I agree with the Executive Engineer that it may not be possible for one man to complete all the works and so the recommendation of the Executive Engineer for distributing the works to Messrs. Kempiah and Rangadasappa as above may be approved.

Immediate orders are requested as the sum to be spent is over half a lakh in about 3½ months of the official year remaining.
